

**1ST CHOICE
FOR YOUR
PARTNER**

DRIVE²

YAMAHA IS THE

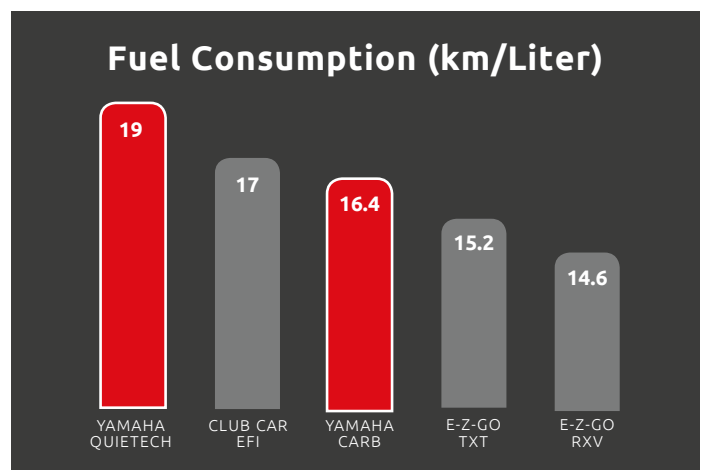

QUIETECH EFI & CARB

Our **Quietech EFI** cars, now equipped with Independent Rear Suspension, are the quietest, most comfortable on the road. And if you're worried about emissions, don't be! Our petrol cars feature the lowest fuel emissions around, and with over 60 years of engine manufacturing experience under our belts, you can trust the dependability and performance known to Yamaha owners around the world.

- Smallest carbon footprint
- Fewest emissions and up to 76% less pollutants than competitors ¹⁾
- Over 415 km on a single fill-up

More fuel efficiency for better value. The **Drive² Carb** car has comparable fuel efficiency when compared to our competitor's EFI model.

¹⁾ Independent laboratory testing in a fleet environment by Transportation Research Center, Inc. 2015, on model year 2016 cars.

²⁾ Decibel reading from 25 feet at constant speed on a paved cart path for 2016 fleet models

EASY CHOICE

DRIVE²

POWERTECH AC & DC

PowerTech AC cars prioritize energy efficiency while offering all the power you need – rapid acceleration, smooth uphill climb, and exceptional battery strength and endurance. You can't go wrong with PowerTech AC because our battery power is synonymous with horsepower, and efficiency is our middle name.

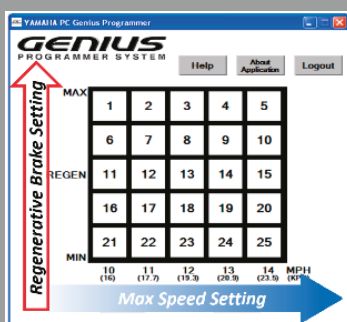

- The most horsepower in its class
- Best hill-climbing ability in the industry
- Smoother, faster acceleration
- Energy efficient

Love the ride of PowerTech AC but don't need all the power? Then our **Drive² DC** car is for you. When your customers demand electric, give them a dependable car that has all the features that today's modern golfers demand.

The **Drive² DC** saves you more money than ever.

Adjustable regenerative brake power & speed with genuine Diagnostic system.

Yamaha uses industry-best Trojan T-875 batteries.
